Getting Started

This course is constructed to "initiate a national discussion on professional policy and practice issues among archivists, librarians, and Native Americans... by embracing the power of conversation, cooperation, education, negotiation, and compromise."

This course and the Protocols serve as a beginning.

   Talking Circle
   The Give Away
   Ask Your Facilitator
   Protocols for Native American Archival Materials Wiki

3. Getting to Know Each Other
   Introductions to each other
# Introduction to the Protocols

**Protocols Basics Powerpoint**

**Protocols for Native American Archival Materials website**

**Protocols for Native American Archival Materials**

# Getting to Know the Protocols

**Initial Thoughts on the Protocols**

**Protocol Basic Questions**

**Protocol Contributors**

# What's in a Word

**Brief Glossary of Terms**

**Glossary Entry and Comments**
Confident Example Setting Assignments
Individual Assignments:

1. Weekly discussion forum posts:
   • Post a brief reflection to the discussion forum each week
   • Comment on at least one other participants forum post each week

2. Glossary Assignment
   • Enter one word from the Protocols Glossary into the Moodle Glossary
   • Comment on at least one Glossary entry

3. Protocol Contributors Assignment
   • Go to the Protocol Contributors List in the Getting to Know the Protocols section of the Moodle.
   • Pick one of the contributors to contact by email or phone.
   • Contact the contributor, tell them about your participation in this course, ask them about their thoughts on the Protocols.
   • Post an entry to the discussion forum to share what you learned.
Group Assignment:

Protocol Topic Review and Presentation

• Go to the Protocols Wiki in The Gathering Place.

• Select a Protocol Topic of your choice, place your name under the topic by the beginning of the third week of class.

• With the other participants who have selected this topic prepare a half hour class presentation on the topic.

• Post your presentation materials to the Protocols Wiki.
Final Project

The Protocols Confident Example Setting Final Project is your opportunity to make a contribution to emerging practice of the Protocols.

This may be an individual project or a project with two or more participants.

One page draft proposals of the final project are due to the Confident Example Setting discussion forum by the mid-point of the course.

Final projects or links will be posted to the Final Project forum on the last day of class.
Moving Forward: Final Thoughts

1. In the Confident Example Setting Next Steps forum, write a brief reflection on at least one 'next step' that you will be taking in implementing the Protocols.

2. In the Confident Example Setting What Worked, What Could be Improved forum, please share your thoughts about how we can improve this course for future participants.
Thank you for choosing to learn with us & helping to shape Protocols based emerging practice!
