- New SAA Catalog and Books!
Goodwill Industries International is celebrating 100 years of serving people with barriers to employment. Methodist minister Rev. Edgar J. Helms initially founded Goodwill in 1902 to help residents of economically distressed South Boston.

Today, Goodwill serves almost 550,000 people annually with career services programs. The cover photo of Helms and two children was published in the 1924 book, House of Goodwill. Courtesy of Goodwill Industries International. Submitted by JASON WEISHAUP'T.
Descriptive Standards and Archival Foundations

When I started to write these columns I promised I wouldn’t hector you for the entire year on the subject of descriptive standards. By and large, I have kept that promise, notwithstanding that the exigencies of events have conspired to keep my focus elsewhere. However, I’m sure none of you believed that I could resist the temptation altogether—especially since this is my last column. After all, much of my professional life (and indeed, perhaps even my very professional essence) has been fundamentally defined by the development and promulgation of such standards.

I won’t waste any space here recounting that history. First of all, most of you have already heard or read about it. Secondly, Susan Davis, my erstwhile fellow Councilor and good friend, is currently working on her doctoral dissertation on the subject of the impact on the profession of the development of descriptive standards and I fully expect that this will be the last word on the subject.

In truth, the reason I am bringing up the subject has nothing to do with its history; if that were the case, I’m not sure that I would be particularly interested myself. I am, rather, speaking of the future of descriptive standards and some essential truths that I have either uncovered or reaffirmed over the course of the last year.

By this time next year, APPM will be history (and the eponymous “Hensen” will, I hope, become “Dryden” instead). I am speaking of the progress of the NEH-funded Canadian-U.S. Task Force on Descriptive Standards (CUSTARD) project. Over the course of the last year, the group, led by co-chairs Kris Riesling and Bob Krawczyk with project manager/editor Jean Dryden, has deconstructed RAD, APPM, and ISAD(G) and put them back together into what is quickly becoming one harmonious whole. Without revealing any secrets (to say nothing of anticipating decisions yet to be made), I can safely tell you that, with respect to descriptive standards in the U.S., things will be pretty much the same. At the same time, they will also be totally different.

Under the new standard, your cataloging records will continue to look as they do now with appropriate nods and curtsies to both MARC 21 and AACR2. Moreover, should these hoary standards ever properly evolve, archivists should be well positioned to take advantage of any changes.

What will change—and change dramatically—is that you will all now have a proper content standard for archival description in all of its various manifestations: accession records, preliminary inventories, finding aids, calendars, catalog records, digital metadata wrappers, etc.; and for all of the rapidly evolving physical forms and media which today constitute “archives.”

For over two decades in the U.S. we have had in MARC and, more lately, in EAD data structure standards that have allowed us to communicate and share information about the content and nature of our holdings with a rapidly expanding universe of users. We have also had in AACR2 and its bastard progeny, APPM, a data content standard for the cataloging strain of description.

It was not easy in the early days of APPM convincing archivists to start using library tools for description via cataloging. However, we seem to have gradually warmed to the idea; or at least to the extent that there are currently over 600,000 archival records in RLG’s database alone. The problem all along, however, has been that for most archivists, cataloging was a somewhat unnatural and artificial act. The crux and focus of description has always properly been with the preparation of finding aids, registers, guides—whatever local term you use. It was not until the development of EAD that we had a formal structural standard that would facilitate the online sharing of such guides. The problem was that there were no content standards for what went into those finding aids.

Without belaboring the rest of the story (on which I believe I have delivered at least three separate papers) the product of the CUSTARD group will provide that standard. Moreover, this as yet untitled product, having been forged through a collaboration between Canadian and U.S. descriptive experts, while paying full attention to ISAD(G), will, it is hoped, become the foundation for a more comprehensive international standard.

The most interesting part of this work for me, however, has been the theoretical rigor which has underpinned the entire project. In the past, the main differences between APPM and RAD have been seen...
The Preeminent Event For Archives Professionals!

- Nearly 100 hours of educational sessions;
- Nine pre-conference workshops and seminars;
- Six seminars on archival fundamentals;
- Three general sessions;
- Section and roundtable meetings;
- International Archives and Information Technology Exposition;
- Tours of Birmingham archival and cultural attractions.

What’s In It For You?

- Learn innovative ideas that can be implemented within your institution;
- Discuss technological, social, budgetary, and other trends;
- Build new and existing professional relationships;
- Explore the latest in archival products and services;
- Broaden your horizons and deepen your commitment to the profession;
- Renew your archival spirit!

SAA The Society of American Archivists' 66th Annual Meeting
August 19-25 • Birmingham, Alabama • Sheraton Birmingham Hotel

Archival Roots: Our Foundation and Our Future

Birmingham 2002

Headquarters and Lodging:
The Sheraton Birmingham Hotel
888/661-5678 or 205/324-5000 • www.sheraton.com/birmingham

Registration Information:
Registration received in SAA office by July 22, 2002:
SAA Members $305 • Nonmembers $355
Students $100 • Nonmember students $110

On-site registration:
SAA Members $325 • Nonmembers $375
Students $100 • Nonmember students $110

One-day registration:
SAA Members $130 • Nonmembers $145
Students $100 • Nonmember students $110

Annual Meeting Program online at www.archivists.org/conference.
Free Seminar on Current Metadata Initiatives at SAA Conference

The 66th annual meeting of the Society of American Archivists in Birmingham, Alabama, will feature a free update on current metadata initiatives on Wednesday, Aug. 21, 2002, from 1 p.m.-5 p.m. The update is organized and presented by the Research Libraries Group (RLG). Participants will learn about and discuss the implications of a number of new metadata initiatives that have special relevance to the archival community.

DANIEL PITTI of the University of Virginia will lead off with a report on the Encoded Archival Context (EAC), an ongoing initiative within the international archival community to design and implement a prototype standard for encoding descriptions of record creators. MARTIN HALBERT from Emory University will give an update on the Open Archives Initiative, an enabling framework for the development of innovative, networked information services. RLG Program Officer TONY GILL will speak about the CIDOC Conceptual Reference Model (CRM). Although the CRM originally developed for museum applications, it is also highly relevant to libraries and archives, and could potentially serve as a “semantic bridge,” helping memory institutions share knowledge with one another. MERRILEE PROFFITT, also from RLG, will give an overview of METS, a generalized metadata framework. Finally, ANNE KENNEY from Cornell University will provide commentary on the recently issued RLG/OCLC report, “Attributes of a Trusted Digital Repository.” Plus, there will be plenty of time for questions and discussion.

Join us for an exciting tour of the emerging metadata landscape. More information can be found at www.rlg.org/primary/metadata_update02.html. Please RSVP to FRAN DEVLIN at fed@notes.rlg.org.

Birmingham Sunlights to Perform at 2002 Conference

The world-renowned Birmingham Sunlights will provide entertainment during the 2002 SAA annual meeting at a reception to be held at the Birmingham Civil Rights Institute on Friday, Aug. 23, from 7:30 p.m.-10 p.m. Known for their four-part a cappella style, this group performs well-known hymns as well as original pieces. They have made appearances at folk and gospel festivals throughout the U.S., as well as in Africa, Australia, and France. They have also been guests on Garrison Keillor’s American Radio Theater on National Public Radio. For more information about the Birmingham Sunlights, visit www.arts.state.al.us/actc/compilation/sunlights.htm.

Volunteer Assistance in Birmingham

SAA meetings director DEBRA NOLAN has recruited top notch talent to assist with conference logistics during SAA’s 66th annual meeting at the Sheraton Birmingham Hotel. There are myriad details to attend to so that workshops, sessions, tours, exhibits, receptions, and other activities go off without a hitch. Perhaps no one knows this better than SHARI CHRISTY of Anteon Corporation who will mark her ninth year as an onsite meeting assistant. Joining her for the first time will be MATTHEW EIDSON, a graduate student at the University of Pittsburgh School of Information Sciences.

In addition, because the 2002 annual meeting tours are more complex this year, there will be two volunteer tour coordinators: CHELSEA DINSMORE of the University of Texas at Austin and JOHN LEGLOAHEC of the International Monetary Fund.

Lastly, DYLAN MCDONALD, who is pursuing a M.A. in history at Boise State University, has been selected to serve as an intern on the 2003 Program Committee.

SAA is fortunate to have such enthusiastic volunteer assistants. The meeting is sure to run more smoothly with their help.
Musings from a New York Yankee in King Cotton's Court
by JESSICA LACHER-FELDMAN, W.S. Hoole Special Collections Library, The University of Alabama

Archival Outlook has featured articles over the past year highlighting some of the exciting things to be offered in Birmingham, Alabama, at SAA's 66th annual meeting, Aug. 19-25, 2002. The time is approaching when you will be able to see for yourself! I have read the Archival Outlook articles written by my fellow SAA Local Arrangements Committee members with great interest and anticipation as well. There is much about Birmingham and Alabama that I have yet to discover. I am looking forward to experiencing some of that in my own new backyard!

I joined the University of Alabama Libraries faculty just two years ago. I came to Tuscaloosa from Albany, New York. Before I actually moved, it felt like a world away. It has certainly been a big change, but in ways that have been much different than I had anticipated. I did get a fair number of questions like, "Why are you moving there?" and "Are you crazy?" I never imagined that I would live in Alabama, which I had envisioned as an abyss somewhere between Atlanta and New Orleans. Oh, how wrong I was!

The adjustment to living in the Deep South has been an incredibly pleasant one, and pleasant for more reasons than this article can accommodate. Everything has been made easier by some of the things that Southerners probably take for granted. Ubiquitous air conditioning, incredibly friendly people (this is the only place that I have ever been where strangers actually make conversation in elevators!), and a difference that I find both undefinable and fascinating. Life in a university town can be a dynamic one, especially if you take advantage of all that is offered.

Too young to have experienced the Civil Rights Era, my perceptions of the Deep South came from film, books, and from studying the South as a student. Moving to Alabama with little formal background in Southern history and culture, the challenges ahead did not elude me. There is virtually no other profession that demands more knowledge of the history and culture of a region than that of an archivist, especially an archivist working in public service, providing reference service, giving tours, and coordinating exhibits and events. Archivists pride themselves on making connections and collecting knowledge within their heads, much like we collect materials for our archives. So here I am, a true Yankee, thrust in the middle of this exotic new world.

The happy result is this transplanted Northeasterner's continually growing interest in Alabama and its rich and diverse history and culture—high and low, serious and campy. There is a continuous quest for new knowledge. Those I meet who have called Alabama home for much longer, perhaps a lifetime, enjoy nothing better than showing you everything that makes Alabama unique, whether it be a Chilton County peach or the work of a ninth-generation Alabama potter.

The "101 Reasons to Come To Alabama" flyer, part of your registration packet from last year's conference was great fun for the Host Committee to pull together. We could have made it 1,001 reasons! Personally, I have been inspired by the rich literary tradition in Alabama, and this has been reflected in a lot of the work that I do with exhibits and outreach at the University of Alabama.

While the University of Alabama may be best known for its football team and for George Wallace's "stand in the schoolhouse door," it also has been the training ground for great writers such as Harper Lee, William March, Gay Talese,
Mockingbird, was used as the model for the courthouse even today. The old courthouse, which Maycomb is very much like Monroeville, a young boy. The fictional town of character of Dill in Lee's opus, Monroeville. It is even said that the Truman Capote and Harper Lee began to learn more about Alabama is of information that came to me as I and culture.

Many different aspects of Alabama life and culture.

One of the most remarkable pieces of information that came to me as I began to learn more about Alabama is that Truman Capote and Harper Lee grew up together in a town called Monroeville. It is even said that the character of Dill in Lee's opus, To Kill a Mockingbird, was modeled on Capote as a young boy. The fictional town of Maycomb is very much like Monroeville, even today. The old courthouse, which was used as the model for the courthouse in the film, is now a museum. And sneaking a seat in the witness stand brought me a rush of emotion—partly from the memory of the moving courtroom scenes in To Kill a Mockingbird, and partly from a strange sense of pride in Lee's writing, and the fact that she, like me, calls Alabama her home. In the 1960s, Harper Lee even worked together with Capote, accompanying him to Kansas and doing research for his groundbreaking nonfiction novel, In Cold Blood.

Mark Childress, author of Crazy in Alabama and World Made of Fire, also hails from Monroeville. Growing up and knowing that Lee and Capote had come from such humble small-town beginnings inspired him to become a successful writer. And though Capote was a true cosmopolite, much of his beautiful prose reflects life in rural Alabama. His first book, Other Voices, Other Rooms, is the quintessential Southern Gothic novel.

Other noted childhood friends from Alabama were Tallulah Bankhead, Zelda Sayre Fitzgerald, and Sarah Mayfield, who all grew up together in Montgomery. Bankhead went on to a celebrated acting career on both stage and screen during the first half of the twentieth century. Zelda was a writer in her own right, and married one of America's best-loved twentieth-century authors, F. Scott Fitzgerald. Mayfield, though much less known, was a writer and inventor, and wrote, among other things, the definitive biography of the Fitzgeralds.

Living in Alabama and working at the university has changed me in a few ways that I have not yet fully grasped. For example, while not an avid sports fan, I have managed to attend nearly every Crimson Tide home football game since arriving here, and have even found myself bragging to colleagues at a conference about our winning basketball team. The football phenomenon alone is an experience that must be witnessed to be appreciated. It is a unifying force and a source of such great pride that the results of a game can completely alter the mood of the entire campus and community.

While there won't be any football games during the conference, you can experience some of Alabama that most will never get to see by joining us on one or more of the great tours that we have put together for you. Whether it is to the Alabama Black Belt, Selma, or to Rickwood Field in Birmingham, these are experiences you will remember for a lifetime.

I have heard Birmingham referred to as the "last true Southern city in America." I bet a Northerner must have come up with that one, because defining "Southern" is a lot more complicated than the homefries/grits dividing line. Birmingham is a new city, with industrial roots, a diverse population, and lots to see and do. It is where I happily go to enjoy a great Indian dinner, to see a movie with stadium seating, and to shop when I really want to shop. It is also a place to go to learn about struggle and change, and to discover the hidden treasures that any metropolitan center has to offer, from its own unique heritage and foodways, to its architecture and natural history, to its people, its tempo, and its very essence.

While the SAA meeting itself will prove to be an enriching experience, the SAA Host and Program committees and the SAA staff have worked tirelessly to provide some unique Deep South experiences, in the tours as well as the reception, and with some of the sessions you'll attend. You may be so busy networking and learning that you won't get to try a deep fried pickle, but you can certainly say that it will be a whole lot harder to avoid them in Alabama.

When you step out of the Birmingham airport and into the sultry Southern air, hum a few bars of Tuxedo Junction ("Way down South in Birmingham"), get ready for some great barbecue, and you can count on a great meeting, getting back to our archival roots! See you in August!

Different Formats but the Same Goal: Providing Quality Education at the SAA Conference

SOLVEIG DESUTTER and PATTI O’HARA, SAA Education Directors

You may have noticed that the Society of American Archivists has added a "seminar" category to its education schedule and asked yourself, “What’s the difference between a seminar and a workshop?”

From a content and presentation perspective, we won’t invent a new way to describe it when someone already has done it succinctly. In Designing and Implementing Effective Workshops (San Francisco: Jossey-Bass, 1984), Thomas J. Sork defines the term workshop “as a relatively short-term, intensive, problem-focused learning experience that actively involves participants in the identification and analysis of problems and in the development and evaluation of solutions." Whereas a seminar “is a session or series of sessions in which a group of experienced people meet with one or more knowledgeable resource persons to discuss a given content area.”

SAA has traditionally offered workshops and will continue to do so. With the addition of seminars, we will be adding to a solid foundation. From an economical perspective, seminars will allow us to decrease registration fees because seminars can accommodate more people and are not based on hands-on instruction. Workshops, on the other hand, may include computers and/or data projectors with as many as two instructors, which can result in comparatively higher fees.

One of the first seminars to be offered is "Archival Perspectives in Digital Preservation" on Aug. 19-20 during SAA’s 66th annual meeting in Birmingham...

In addition, new workshops at the conference include "Beyond the Static Finding Aid: Delivering EAD with Freely Available Open Source XML Tools" (Aug. 19-20), and "Echoes of the Old South: African American Family History and Genealogy and Archival Reference Services" (Aug. 19). Back by popular demand are "Encoded Archival Description" (Aug. 19-20) and "Copyright: The Archivist and the Law" (Aug. 20).

To learn more about these workshops and seminars as well as to register online, visit www.archivists.org/conference/birm2002prog.asp.

Finally, we are pleased to report that development is underway for a new online course, “Basic Electronic Records,” that will be offered in spring 2003. Stay tuned for details!

Student Chapter Established at Indiana University

Congratulations and welcome to the newest SAA Student Chapter—Indiana University (IU). Special thanks to MAGIA GHETU, who coordinated the application process for submission and approval by SAA Council in May, and university archivist PHILIP C. BANTIN, who is the faculty liaison for the chapter. This brings the total number of student chapters to 14. For more information about student chapters, visit www.archivists.org/saagroups/chap_dir.asp.

In addition, Magia has been named this year’s recipient of the Midwest Archives Conference’s Louisa Bowen Memorial Scholarship. In a recent memo to SAA, Magia wrote, “Things are so exciting at IU’s School of Library and Information Science right now—we just successfully completed the EAD workshop (it was terrific!) and we’re planning to meet to discuss next year’s events.” Congratulations, Magia, on a great year!

SAA Treasurer Elizabeth Adkins serves as Council liaison to student chapters and looks forward to meeting with all student chapter representatives at the SAA annual meeting in Birmingham this August. Council members have contacted all student chapters to schedule a visit. Initial reports are extremely positive from both the Council rep and the hosting chapter. Councilor Jackie Dooley is in the process of compiling the student surveys that were distributed last spring via the listserv and faculty liaisons. A summary report is being prepared.

There's an easier way to preserve for more than a lifetime...

Call for a free Paige Archival Storage Box today and preserve your own history.

The Paige Company Archival Storage Boxes have been designed by archivists to meet the demanding requirements of lifetimes of storage. These extremely strong, multi-walled boxes are the equivalent of 400 lbs PSI (pounds per inch). Each carton is manufactured from 100 percent "acid-free" and "lignin-free" blue gray corrugated paper with a pH of 8.0 to 10.0. Our boxes have a 3% calcium carbonate buffer, contain mold inhibitors and have no residual sulphur. All Paige archival boxes conform to specifications from the National Archives for archival document storage.

FREE SAMPLE ARCHIVAL RECORD STORAGE BOX and more information about all Paige storage boxes when you speak to a Paige archival specialist at: 1-800-95PAIGE Or, fax to 201-461-2677.

Remember, only the Paige Company sells Paige archival and storage boxes.

Developing the National Archives Experience

I want to take this opportunity to update you on one of our most exciting initiatives here at the National Archives and Records Administration—"The National Archives Experience."

As you may know, we are in the midst of a major renovation at the National Archives Building in Washington, D.C., and the Charters of Freedom are undergoing some necessary conservation work. When this work is done, visitors to the National Archives will not only be able to see the Declaration of Independence, the Constitution, and the Bill of Rights in new, more accessible encasements, but they will also discover for themselves the role that records and records keepers play in the history of our country and the lives of Americans. I also hope that visitors will come to realize that the records we safeguard are theirs to use and contain valuable information about their families, communities, and government. It is this experience—this discovery that records matter both to individuals and to the society in which they live—that will be the core of the National Archives Experience.

The National Archives Experience will not be a static exhibit at the National Archives Building, but rather a collection of interactive experiences. There are seven components of the National Archives Experience. The Rotunda will house the Charters of Freedom, and convey the spirit of these great documents of democracy. In order to enhance the viewing of these historic documents, handheld audio speakers with recordings available in several languages will give visitors a new appreciation for the charts and their role in the development of our democracy. The sense of nationhood illustrated by the Declaration of Independence, the government of laws established in the Constitution, and the individual liberties proclaimed in the Bill of Rights will be celebrated in the Rotunda. These same principles will be made tangible in the documents and interactive technology contained in the public vaults.

The public vaults will be designed to give visitors the perspective of going "inside the stacks" of the National Archives where they can see for themselves some of our most interesting and relevant records. A central walkway called the "Record of America" will connect the vaults and will chronicle American history through two dozen original documents—from George Washington's letters to George W. Bush's electronic records.

Once inside the public vaults, visitors will soon realize that they have not just been given behind-the-scenes access to the National Archives, but they are now inside the past, and able to glimpse the very heart of American government. Four subject-centered vaults—"families," "democracy," "exploration," and "military"—will bring the records to life through interactive experiences and connections to everyday life. Visitors can help an elderly widow establish her identity as an American citizen; hold our government accountable for its actions, and claim our rights, entitlements and liberties within a democratic society. By looking inside the vaults of the National Archives, visitors will come to understand that our records don't just tell us what happened in the past—they also help us to uncover the truth and pursue justice today.

The learning center will be our link to educators and students, incorporating our current education programs with new and exciting educational opportunities both on-site and through distance learning. Knowing that we can never stop learning, we will also offer a variety of workshops and other programs geared to adults.

The renovated archives store will be both friendly and informative, offering books and souvenirs and giving visitors a way to take home a piece of the archives. Finally, the Internet will play an integral part in the National Archives Experience, both for those who can't visit us in person, and those who wish to learn more about the archives and our records on their own. It will be a gateway to everything I have talked about—the charts, the public vaults and exhibits, the theater and learning center, and even the store—while also providing access to the records themselves.

It is our intent that visitors leave the National Archives Experience with a new appreciation for the role that records play in our society, and a better understanding of the role of archivists. They will see how records can help us to accurately understand our past, and how records enable us, as citizens, to hold our government accountable for its actions, and claim our rights, entitlements and liberties within a democratic society. By looking inside the vaults of the National Archives, visitors will come to understand that our records don't just tell us what happened in the past—they also help us to uncover the truth and pursue justice today.

Visitors will also see how government records are open and accessible to them and can be seen and used not only in Washington, D.C., but at presidential libraries and regional archives around the country as well as on the Internet. We hope the National Archives Experience will clearly illustrate how records serve as the link between our past and our future, by telling the stories of individuals, families, and communities as well as how the actions of our leaders have shaped our history.

The National Archives Experience is in development now, with many people working hard to turn ideas into reality. None of this would be possible without the support of the Foundation for the National Archives, a not-for-profit organization that is taking the leadership role to develop the National Archives Experience.

Bush Administration Loses Censorship Legal Battle

The Bush Administration has lost an important round in an ongoing legal battle in which the administration asserted exclusive executive department authority over the classification and declassification of government information. In a 110-page federal court decision issued June 9, 2002, U.S. District Judge Emmet Sullivan emphatically rejected White House claims that the executive branch alone has the right to determine who may have access to classified information and that such determinations are not subject to judicial review. In making the decision, the court ruled that the judicial branch indeed does have the jurisdiction to review executive branch decisions about classification of government (including national security related) information.

The case focuses on governmental review of a 500-page manuscript titled, Inside China’s Nuclear Weapons Program, written by Danny Stillman, a retired chief intelligence officer who worked at the Los Alamos National Laboratory. During the pre-publication review of manuscript, government censors sought to delete some 20 percent of Stillman’s study. Stillman sued the Department of Defense and the CIA claiming that they were violating his First Amendment Rights. In asserting its right to censor the manuscript the government argued that the Constitution gave the executive branch total authority to control access to classified information and therefore was well within its rights to deny granting access to classified portions of the manuscript to Stillman’s attorney, Mark S. Zaid.

But the court disagreed. In rebuffing the administration’s position, Judge Sullivan stated in no uncertain terms that: 'The implications of the arguments put forth by the government in this case are stunning. . . . The government argues here that any and all conflicts between national security interests and individual constitutional rights can not be resolved by the courts because the Constitution commits the protection of national security to the Executive Branch. . . . but that is not and has never been the law. . . . If this were the law, the Pentagon Papers case. . . . was wrongly decided [and] the Freedom of Information Act. . . would be unconstitutional. . . . This Court will not allow the government to cloak its violations of plaintiff’s First Amendment rights in a blanket of national security.'

Judge Sullivan ordered the government "to proceed expeditiously" to conduct the background investigation needed to approve Mr. Zaid’s clearance for access to contested portions of the Stillman manuscript. While the book is not yet cleared for publication by government censors, the court’s action is an important step toward that ultimate goal. But perhaps more important, “from a First Amendment standpoint,” stated attorney Zaid, "this decision is up there among the most prominent decisions ever issued in this field."

Oral History Transcription

Accurate! Dependable! Experienced!

Oral history interviews transcribed by a former archivist. Confidentiality and quality are assured. We pay careful attention to the details. Standard and micro-sized audiotape cassettes can be accommodated.

Amici Curiae Briefs Filed in Eldred Case

On May 20, 2002, several amici curiae briefs were filed on behalf of a diverse group of academics and organizations including the Society of American Archivists, the American Library Association, College Art Association, the Midwest Archives Conference, the Organization of American Historians, and dozens of other groups in support of Eric Eldred, an online publisher who is challenging the constitutionality of the 1998 Sony Bono Copyright Term Extension Act. The case, Eldred v. Ashcroft is to be heard by the U.S. Supreme Court this fall.

The briefs will be used by the Court to help determine whether the new copyright act that grants protection of existing copyrights by an additional 20 years (to 70 years after a creator’s death) is constitutional. Eldred contends that Article I, Section 8 of the Constitution which provides that the purpose of copyright is to “promote the progress of science and useful arts” is undermined by the new law. In filing their briefs, intellectual property scholars, professors, as well as historical, archival and library groups with national constituencies assert that old books, songs and movies should flow continuously into the public domain and that the present law prevents published material from entering that domain. In fact, the existing copyright law effectively prohibits non-copyright owners—
i.e., librarians, curators, archivists, historians and scholars—from republishing and disseminating older works, even though they may have no significant commercial value but may have strong historical interest or artistic merit.

The case is perhaps the most important copyright matter the Court has taken up in decades in part due to the ramifications that the decision will have on the distribution of creative and historical works in the digital age. The Court's decision may have broad implications for archivists and historians as it could result in thousands of classic films, books, and music that first appeared in the 1920s and '30s becoming freely available on the Internet and elsewhere.

To date, Congress's right to extend the copyright law has been upheld in rulings by both a federal district and an appellate court. Most recently, in a 2-to-1 decision, the U.S. Court of Appeals for the District of Columbia Circuit found that Congress indeed had the authority to extend copyright and found that the law actually gave copyright holders "an incentive to preserve older works." That court held that retroactive term extensions clearly are within congressional authority under the copyright clause and that the 20-year term extension did not violate the First Amendment. When the Supreme Court agreed to hear the case, many legal scholars were taken by surprise and some predict that now there may well be a different outcome.

The amici briefs argue that a "fundamental part of the genius of the United States copyright system is that the Constitution ensures that after original, creative works of authors have been rewarded with a limited term of protection, those works become part of the public domain" and should "be freely used by all." Collectively, the briefs also argue that Congress exceeded its authority under the Constitution when it passed the Copyright Term Extension Act (CTRA) as the Act "materially impoverishes the public domain that the clause was designed to enrich."

Court insiders believe the justices will decide the case by focusing narrowly on the question of whether Congress exceeded its authority when it passed the most recent copyright extension. Oral arguments before the Supreme Court are expected to take place in the fall.

For all the briefs and other background material, visit http://eon.law.harvard.edu/openlaw/eldredvashcroft/legal.html.

**Update: Bill to Nullify Presidential Records Executive Order**

On April 11, 2002, legislation was introduced by the leadership of the House Committee on Government Reform declaring that President Bush's Executive Order 13233, "Further Implementation of the Presidential Records Act," which imposed new restrictions on public access to presidential records from past administrations, "shall have no force or effect."

The bill, "The Presidential Records Act Amendments of 2002" (H.R. 4187) was introduced by Representative Stephen Horn (R-CA), chair of the House Subcommittee on Government Efficiency, Financial Management, and Intergovernmental Relations. [For the full text of the legislation, visit www.fas.org/sgp/congress/2002/hr4187.html.]

Subsequent to the bill's introduction two hearings were conducted by the House Committee on Government Reform, Subcommittee on Government Efficiency, Financial Management and Intergovernmental Relations. The first, "The Importance of Access to Presidential Records: The Views of Historians," focused on the views of historians Robert Dallek, Richard Reeves, Stanley Kutler, and Joan Hoff, all of whom have had extensive experience in working with presidential records. Letters of support were entered into the hearing record from Arthur Schlesinger Jr. and John Morton Blum as was an editorial published in the Nov.11 issue of the *Fort Worth Star-Telegram* by the late Hugh Davis Graham. [The full testimony of all four historians may be found at www.fas.org/sgp/congress/2002/index.html#pra.]

A week later a second hearing was conducted in which the Committee heard from a panel of distinguished legal scholars that included Jonathan R. Turley, professor of law at George Washington University Law School; Morton Rosenberg, specialist in American Public law at the Congressional Research Service; Mark J. Rozell, professor of politics at The Catholic University of America; and Todd Gaziano, director of the Center for Judicial and Legal Studies, The Heritage Foundation. In addition to the panelist’s testimony, letters in continued on page 22
Comprehensive Study of Loss to Nation’s Cultural Heritage as Result of 9/11

*Cataclysm and Challenge,* a 26-page report by Heritage Preservation, offers a comprehensive study of what was lost culturally and historically—both in Lower Manhattan and the Pentagon—on September 11, 2001. The report also highlights findings obtained from a survey—conducted in the months immediately following 9/11—of 122 museums, libraries, archives, and collecting institutions in Lower Manhattan. The report also offers specific recommendations concerning emergency planning for collecting institutions, including increased staff training, current collections inventories, and more effective communications between emergency management and cultural heritage fields. For a copy of *Cataclysm and Challenge,* visit www.heritagepreservation.org.

La Rueda de Salvamento y Respuesta ante Emergencias

The Spanish language version of the Emergency Response and Salvage Wheel, a hands-on tool that explains how to save collections, is now available. The wheel is designed for use within 48 hours of an emergency when salvage measures are most critical. On side one of the wheel, "Action Steps" outlines critical stages of disaster response, such as stabilizing the environment and assessing damage. On side two, "Salvage Steps" provides practical tips for nine types of collections: books and documents, photographs, electronic records, paintings, and more. To order the wheel or to learn about other disaster resources, visit www.heritagepreservation.org.

Canadian Heritage Information Network Releases New Web Site

The Canadian Heritage Information Network (CHIN), created in 1972 to foster sound management of the knowledge and collections developed by museums and to provide public access to that knowledge through a national inventory of museum collections across the country, recently launched a new Web site: www.chin.gc.ca/English/index.html. More than 700 Canadian museums have joined in the collaborative effort to develop content for on-line audiences and the results can be seen at the groundbreaking portal coordinated by CHIN: The Virtual Museum of Canada at www.virtualmuseum.ca/English/Gallery/index.html. One of the most useful and interesting components of the new CHIN site is "Creating and Managing Digital Content" designed to guide museum managers through the planning and implementation of a digitization project. It covers issues such as non-digital images, new photography, the exposure and care of objects, copyright, storage and much more. (www.chin.gc.ca/English/Digital_Content/index.html).

Renovated Facility for Pittsburgh Library Departments

The University Library System (ULS) at the University of Pittsburgh acquired a renovated off-campus facility to house many of its expanding departments. After a two-year renovation effort, the Archives Service Center, Preservation Department, Digital Research Library, Technical Services, Gifts and Exchange, and Information Systems were relocated to the Thomas Building (formerly Edison Electric) in a space that covers approximately 73,430 square feet. The university also constructed a 16,600 square-foot high bay storage area at the rear of the building, which will accommodate 1.2 million volumes.

Archives Service Center (ASC): Contains over 32,000 linear feet of collections, including the Archives of Industrial Society (AIS), University Archives, and Records Management. In particular, AIS consists of historical collections related to the development of Pittsburgh’s urban industrial society, including the records of the Union of United Electrical Workers, the Dick Thornburgh Archives, and the Pittsburgh City Photographers Collection. Archival acquisitions are expected to increase annually by about 1,000 linear feet. For the first time all of the ASC collections are now housed in one facility with proper environmental conditions.

The Thomas Building provides ASC with 13,256 square feet of stack space and nearly 4,461 square feet of expansion space. The renovations include a media room capable of holding 2,793 linear feet of material, and has climate-control designed to reflect the temperature and humidity needs of photographic, film, and other media formats.

The ASC is the only public service department at the Thomas Building, welcoming students, faculty, staff, and the public to the new reading room located on the second floor. The spacious room includes storage lockers, microfilm readers, public computer terminals, laptop ports, and reference desk service.

Preservation Department: ULS has placed a renewed focus on the preservation of library and archival materials with the opening of a new state of the art Conservation Laboratory in the Preservation Department. The new lab supports a variety of services and conservation treatments for library and archival materials, including in-house book repair, brittle books replacement and reformatting, disaster planning and preparedness, and staff education. The layout of the Conservation Laboratory and acquisition of new workbenches and furniture for storage improves workflow and creates a teaching facility for interns from the School of Information Sciences, ULS staff, and the Pittsburgh community.

Digital Research Library (DRL): Supports the creation of Web-accessible digital library collections. The DRL benefits from the move to the Thomas facility in several immediate ways: the network speed has increased from 10-Mbps to 100-Mbps, which means data can be moved around more efficiently and effectively; moreover, every PC now has a dedicated networking port, which results in faster file transfer and Internet access.
More importantly, the DRL is now under the same roof with those library departments that it most frequently works with: archives, preservation, technical services, and information systems.

—submitted by Ed Galloway, Head, DRL

Truman Presidential Museum & Library named Tourism Leader

The Truman Presidential Museum & Library in Independence, Mo., recently received the Tourism Leadership Award for 2002 from the Convention & Visitors Bureau of Greater Kansas City. The Truman is one of only 10 presidential libraries administered by the National Archives and Records Administration. Last December the museum reopened with its new permanent exhibit: "Harry S. Truman: The Presidential Years." For the latest information, visit www.trumanlibrary.org.

Congressional Papers Forum Report

Congressional Papers Forum: The Third Report of the Advisory Committee on the Records of Congress, August 29, 2001, was recently published. The proceedings provide a first-hand account of the creators and keepers of legislative documentation as they grapple with two of the most persistent problems affecting the quality and usefulness of public policy documentation, namely the weakness of archival records management in congressional offices and the lack of a strong national network of congressional resource centers. Sponsored by the SAA Congressional Papers Roundtable, the forum explored ways to mitigate the ill effects of these problems. Eighty-five specialists in the field from around the country participated in the forum and proposed a series of recommendations to facilitate improvements in archival/records management and promote an understanding of the vital role that public policy centers play in making congressional collections available. For a copy of the report, contact: Karen D. Paul, Project Director and Archivist of the U.S. Senate, karen_paul@sec senate.gov or 202/224-3321.

Clariication

Dear Editor:

Page 21 of the May/June issue [of Archival Outlook] includes an item which describes the [American Association for the Advancement of Science] as "the oldest general scientific society in the world." I realize that this was a press release from the AAAS rather than a news item researched by SAA, but surely someone must have realized that the Royal Society is not only older than the AAAS, it predates the United States by more than 100 years.

—Stanley Kalemaris, Suffolk County Library, New York

THE ELECTRONIC Scriptorium

Need Help Putting Your Archives Online?
Your Prayers Have Been Answered!

Find out why many leading corporations, government agencies and institutions have turned to Electronic Scriptorium for cost-effective ways to automate their archives. Our company’s expertise covers:

- Finding aids automation for online applications
- Backfile conversion
- Indexing and keyword assignment
- Taxonomy development
- Image scanning and other digitization services
- Image cataloging (MARC, VRA Core and other formats)

Scriptorium can also assist with software selection and project strategy decisions. If you’re planning to put your archive online, but aren’t sure where to start, visit our Web site (www.ElectronicScriptorium.com) or give us a call!

The Electronic Scriptorium, Ltd.
26 Fairfax Street, SE Suite K
Leesburg, VA 20175
Ph: 703-779-0376 Fax: 703-779-0378

www.archivists.org
New SAA Catalog and Books!

The 2002 Professional Resources Catalog is here! It was mailed to members in June. Based on your recommendations, more than two dozen new titles have been added to the catalog since last year. Books run the gamut of basic texts on archival fundamentals to more advanced readings on theory, digital resources, and program management. The more than 170 titles listed represent the latest thinking and best practices of the profession.

The much-anticipated Sample Forms for Archival and Records Management Programs, jointly published by ARMA International and SAA, includes nearly 200 sample forms as camera-ready originals and on a CD. Archives in the Ancient World, by Ernst Posner, has been re-issued by SAA 30 years after it was originally published. It is the third installment in the Archival Fundamentals Series. In addition, this year the catalog also features promotional items (mug, shot glass, and bumper sticker) and titles available in Spanish.

SAA is the leading clearinghouse for archival resources in print—a virtual one-stop shop and premier convenience store for the profession. The goal in assembling these resources is to save you time and, as a member of SAA, to save you money through discounted pricing.

Please continue to keep me informed of titles relevant to your work (send suggestions to tbrinati@archivists.org). Our Web catalog will be updated regularly at www.archivists.org/catalog.

In the meantime, here are some books you’ll want to add to your shelves.

---

Archive Fever: A Freudian Impression
Jacques Derrida
An extended meditation on remembrance, religion, time, and technology—fruitfully occasioned by a deconstructive analysis of the notion of archiving.

The University of Chicago Press (1998) 114 pp., soft cover
Nonmembers $20 • SAA members $12 • Product Code 193

Archives in the Ancient World
Ernst Posner
In 1972 Ernst Posner created for the first time a sound historical basis for the archivist’s understanding of the genesis of the profession by drawing on the findings of Assyriologists, papyrologists, and classicists.

SAA Archival Classics Reprint
(2002; Harvard University Press, 1972) 305 pp., soft cover
Nonmembers $45 • SAA members $35 • Product Code 174

Archives in the UK and the Government Agenda
edited by Caroline Williams
Provides a snapshot of the changing archival landscape in the UK.

Liverpool University Centre for Archives Studies (2002) 76 pp., soft cover
Nonmembers $11 • SAA members $9 • Product Code 187

Bibliography of Preservation Literature, 1983-1996
Robert E. Schware, Susan G. Swartzburg, and George M. Cunha
This bibliography highlights the organizations and other resources that will assist in all aspects of collection preservation; from protective wrappers to magnetic media to acquisition and organization.

Nonmembers $89.50 • SAA members $79.50 • Product Code 182

---

Copyright in Cyberspace: Questions & Answers for Librarians
Gretchen McCord Hoffman
Learn what you should—and need—to know about copyright law, and how it applies to online information and specifically to libraries, including fair use and other pockets of protection, liability for Web content, interlibrary loan and resource sharing, downloading and printing rights, hyperlinks, public display and performance of audio/video Internet.

Neal-Schuman Publishers (2001) 175 pp., soft cover
Nonmembers $58 • SAA members $53 • Product Code 142

Creating and Documenting Electronic Texts
Alan Morrison, Michael Popham and Karen Wikander
A basic guide to transferring texts and archiving them into electronic form or similar digital resources, with lots of pointers to specialized information.

Oxbow Books (2000) 63 pp., soft cover
Nonmembers $23 • SAA members $18 • Product Code 146

Creating Digital Resources for the Visual Arts: Standards and Good Practice
Catherine Great, Phil Purdy and Janine Rymer
This guide provides advice on legal issues such as copyright and rights management, technical advice, standards for data documentation, project management, storage and preservation, and innovative creative techniques, including Web design and virtual reality.

Oxbow Books (2000) 152 pp., soft cover
Nonmembers $25 • SAA members $20 • Product Code 143

Digital Futures: Strategies for the Information Age
Marilyn Doegen and Simon Turner
Meticulous and completely practical examination of the strategic issues faced in a digital future.

Neal-Schuman Publishers, Inc. (2002) 275 pp., soft cover
Nonmembers $60 • SAA members $50 • Product Code 183

Effective Approaches for Managing Electronic Records and Archives
edited by Bruce Dearstyne
Addresses historical development of digital technologies and their impact on records creation and recordkeeping practices; and strategies for developing and sustaining successful programs, including leadership approaches, partnering with records creators, fostering development of new knowledge/skills abilities for information professionals, and adapting and customizing programs.

Nonmembers $35 • SAA members $25 • Product Code 146

Effects of Light on Materials in Collections: Data on Photoflash and Related Sources
Terry T. Schaeffer
A survey of the impact of exposure to light on works of art and archival materials.

Getty Conservation Institute (2001) 170 pp., soft cover
SAA members $28 • Nonmembers $35 • Product Code 129

Electronic Collection Management
edited by Susan D. McGinnis
This comprehensive volume is a practical guide to the art and science of acquiring and organizing electronic resources.

Haworth Press (2001) 159 pp., soft cover
Nonmembers $40 • SAA members $30 • Product Code 188

Encoded Archival Description on the Internet
edited by Daniel V. Pitti and Wendy M. Duff
Introduces a variety of perspectives that will assist you in deciding whether EAD is an appropriate tool in a given context and provides the knowledge you need to begin planning, organizing, and implementing projects and programs in your archives or library.

Haworth Press (2002) 159 pp., soft cover
Nonmembers $35 • SAA members $25 • Product Code 189

---

by Teresa M. Brinati, SAA Director of Publishing
Genealogical Research on the Web Diane Kowacs
This dynamic text features tips, techniques, and resources on how to efficiently unearth an amazing array of genealogical gold on the Web.
Neal-Schuman Publishers, Inc. (2002) 140 pp., soft cover
Nonmembers $50 • SAA members $50 • Product Code 186

Leadership and Administration of Successful Archival Programs edited by Bruce W. Dearstyne
Eight archival leaders provide first-hand accounts of how to carry out planning, build coalitions and alliances, garner resources, empower and inspire program personnel, and change program direction.
Greenwood Publishing Group (2001) 168 pp., hard cover
Nonmembers $60 • SAA members $50 • Product Code 161

Managing Historical Records Programs: A Guide for Historical Agencies Bruce W. Dearstyne
A must-have resource for anyone considering starting a historical records program or who already has one and wants to strengthen it.
Alta Mira Press (2000) 270 pp., soft cover
Nonmembers $30 • SAA members $24 • Product Code 123

Moving Theory into Practice: Digital Imaging for Libraries and Archives Anne R. Kenney and Oya Y. Rieger
This book, which includes the contributions of more than 50 experts, is directed to libraries and archives that choose to retrospectively convert cultural resources to digital image form.
Research Libraries Group (2000) 189 pp., soft cover
Nonmembers $80 • SAA members $75 • Product Code 206

Planning for Integrated Systems and Technologies John M. Colon, Ann L. Kel ley and Keith Michael Piel
While this publication has a strong library emphasis, the general chapters dealing with developing a technology plan, assessing needs and priorities, developing and evaluating proposals and so forth are extremely useful.
Neal-Schuman Publishers, Inc. (2001) 218 pp., soft cover
Nonmembers $60 • SAA members $55 • Product Code 167

This handbook provides an internationally authoritative and practical guide to the subject of managing digital resources over time and the issues in sustaining access to them.
The British Library (2001) 142 pages, spiral bound
Nonmembers $30 • SAA members $23 • Product Code 177

Public Services Issues with Rare and Archival Law Materials edited by Michael Widener
This wide-ranging book provides detailed instructions for the care and use of rare legal materials; ideas for creating exhibits and outreach activities, including Web sites.
Haworth Press (2001) 198 pp., soft cover
Nonmembers $40 • SAA members $30 • Product Code 191

Sample Forms for Archival and Records Management Programs ARMA International and Society of American Archivists
Nearly 200 sample forms and policies commonly used in records management and archival programs comprise this joint collaboration. Forms have been standardized and made generic so that they can be used as is, either individually or as a compilation selected for inclusion in your own institution’s organizational manual. Camera-ready originals can be photocopied, distributed, and completed. Plus, a compact disc (CD) includes these same forms in rich text format (.rtf), portable document format (.pdf), and in Microsoft Word 97. The CD is compatible with Windows 95, 98, 2000, and NT and Macintosh operating systems.
ARMA Int'l & SAA (2002) 264 pp., soft cover
Nonmembers $40 • SAA members $28 • Product Code 176

Sorting Out the Web: Approaches to Subject Access Candy Schwartz
This book takes a look at what has been done in providing subject access to networked resources, and what is around the corner. Accompanied by ample illustrations and complementary online material.
Ablex Publishing (2001) 184 pp., soft cover
Nonmembers $35 • SAA members $25 • Product Code 141

The Myth of the Paperless Office Abigail J. Sellen, Richard Harper
An examination of why paper continues to fill our offices and a proposal for better coordination of the paper and digital worlds.
MIT Press (2001) 242 pp., hard cover
Nonmembers $30 • SAA members $23 • Product Code 200

The Storage of Art on Paper: A Sasic Guide for Institutions Sherelyn Ogden
This wide-ranging book provides detailed instructions for the care and preserve works of art on paper.
University of Illinois (2001) 30 pp., paper
Nonmembers $40 • SAA members $32 • Product Code 150

Subject Analysis in Online Catalogs (2nd ed.) Hope A. Olson and John J. Boll
Analyzes cataloging in the digital environment and provides a fascinating examination of the components that are crucial for successful and effective subject retrieval in online public access catalogs.
Libraries Unlimited (2001) 400 pp., soft cover
Nonmembers $58 • SAA members $48 • Product Code 151

Trophies of War and Empire: The Archival Heritage of Ukraine, World War II, and the International Politics of Restitution Patricia Kennedy Grimsted with a foreword by Charles Kocskeméti
Of interest to all those studying contemporary rebuilding of cultural and intellectual institutions in Eastern Europe, historians of Ukraine and eastern Europe, and specialists on the retrieval of assets lost to the Nazis or Communist regimes.
Harvard Papers in Ukrainian Studies (2001) 750 pp., soft cover
Nonmembers $25 • SAA members $19 • Product Code 149
DR. NICHOLAS BURCKEL, Dean of Libraries at Marquette University, has received the Distinguished Alumnus Award for 2002 from the University of Wisconsin-Milwaukee. Formal presentation of the award, which recognizes outstanding career achievement since graduation from the university, was made at UWM's commencement exercises on May 12. Burckel joined Marquette in 1995; he received his M.L.S. from UWM in 1983 and also holds a M.A. and Ph.D. in history from UW-Madison.

RICHARD J. COX, professor, University of Pittsburgh School of Information Sciences, was appointed SAA Publications Editor in June. In this position he will work with the SAA Publications Board and the Director of Publishing to acquire new titles for SAA to publish or distribute and to assess the viability of manuscripts and other prospective publications. This is a three-year appointment.

ELENA S. DANIELSON has been appointed associate director of the Hoover Institution and director of the Hoover Library and Archives. She succeeds Charles G. Palm (see below). Danielson joined the Hoover Institution in 1978 and has served as an assistant archivist (1981), associate archivist (1988), and archivist (1997). She also serves as curator of the West European Collection.

PAUL ERICKSEN has been appointed the new director of the Billy Graham Center Archives at Wheaton College (Wheaton, Ill.). He succeeds BOB SHUSTER, who voluntarily stepped down as director to concentrate on purely archival work. Shuster will be continuing on the staff as archivist. Ericksen has been on the staff of the archives since 1982.

FRANCES LYONS-BRISTOL, CA has been appointed manager, Archives & Special Collections at American International Group, Inc. (AIG) in New York City. She was most recently senior archivist/systems administrator for the department where she has worked since 1998. Prior to that she was the archivist at The McGraw-Hill Companies. She succeeds SUSAN MACLIN, CA, who is retiring.

LAWRENCE J. MCCRANK, dean of Library and Information Services at Chicago State University, was made a Honorary Fellow of the Royal Archeological Society of Tarragona (RSAI), Spain, in recognition of his research relating to the objectives of the Society. In 1996 several of McCrank's collected essays were published in Medieval Frontier History in New Catalonia. This research extends from a two-volume dissertation at the University of Virginia on The Restoration of the See of Tarragona (1974) and an earlier M.A. thesis on The Frontier Monks of Poblet. RSAI has agreed to publish McCrank’s dissertation as the millennium history of medieval Tarragona.

LISA MIX has taken the position of manager of archives and special collections at the Kalmanovitz Library and the Center for Knowledge Management at the University of California, San Francisco (UCSF). Prior to her appointment at UCSF, she was coordinator for processing and research at the Alan Mason Chesney Medical Archives of the Johns Hopkins Medical Institutions in Baltimore.

CHARLES G. PALM, retired in December from the Hoover Institution on War, Revolution and Peace, Stanford University, after a 30-year career. He joined the institution in 1971 and served as deputy director after a 30-year career. He was appointed by President George Bush to the National Historical Publications and Records Commission in 1990. Palm was associate director for the library and archives, 1987-90; head librarian, 1986-87; and archivist, 1984-87.

Palm’s long and distinguished career at Hoover included a 1992 negotiated agreement between the institution and the Russian State Archival Service, which led to the worldwide distribution on microfilm of more than 12 million pages from the Soviet Communist Party and State Archives. Palm directed an acquisition program that brought to Hoover many other major collections, including 2.5 tons of materials on the collapse of communism and the transition to democracy in Eastern Europe, and the voluminous archives of Radio Free Europe/Radio Liberty.

He was appointed by President George Bush to the National Historical Publications and Records Commission in 1990, serving until 1996. In 1998, he was appointed to the California Heritage Preservation Commission, which promotes preservation of the state’s history. Palm was elected chairman of the commission in 1997.

Palm was co-compiler of Herbert Hoover: A Register of His Papers in the Hoover Institution Archives (Hoover Institution Press, 1983) and Guide to the Hoover Institution Archives (Hoover Institution Press, 1980).

Palm is a Fellow of the Society of American Archivists. He was president of the Society of California Archivists from 1983-84.
On the Air

SAA President STEVEN HENSEN was a guest on National Public Radio's Morning Edition on May 14, 2002. NPR's Legal Affairs Correspondent Nina Totenberg had the first of a two-part series on the Bush Administration's efforts to withhold information from the public. Although several Freedom of Information Act requests should have forced the government to release documents in recent years, the administration is urging federal departments to consider possible future ramifications. This suggestion has led many offices to deny all requests.

On the show, Hensen said that "it seems to be that information is something to be controlled by the [Bush] administration and the less the public knows the better." The segment, which is approximately nine minutes long, can be heard via the Web at www.npr.org/programs/morning/index.html (select < previous shows > then highlight May 14).

NHPRC News

- During the spring meeting of the National Historical Publications and Records Commission it was announced that ANN C. NEWHALL, who has served as NHPRC executive director since 1998, is leaving in July. The commission formally extended its "heartfelt appreciation" to Newhall for her contributions over the last few years and praised her as a "persuasive and unrelenting advocate" for NHPRC. Longtime NHPRC staffer ROGER A. BRUNS is serving as acting executive director.
- The first group of NHPRC Archival Research Fellows selected to receive fellowship awards are:
  - NANCY DEROMEDI of the Bentley Historical Library for Wired Faculty: Research to Assess the Archival Value of Faculty Websites to Document their Functions and Activities at the University of Michigan;
  - RICHARD HOLLINGER of the University of Maine Special Collections for The Impact of Electronic Communications on Recordkeeping Practices;
  - ELISABETH KAPLAN of the Charles Babbage Institute for Electronic Brains and Archival Minds: Archivists and Technology in the Postwar Era; and

This first group of fellows will present their findings in June 2003 in Boston at a symposium that will engage a broad spectrum of individuals. For more information about the fellows or how to apply for a NHPRC archival research fellowship, visit www.masshist.org.

Obituaries

BROTHER MICHAEL J. GRACE, 70, the archivist at Loyola University Chicago for almost 25 years, passed away in his room at the Jesuit Residence at the university on May 5, 2002. Brother Grace came to Loyola as an assistant librarian in 1965. He completed his undergraduate degree in theology there in 1970 and earned master's degrees in library science at Northern Illinois University in 1971 and in church history at the Catholic University of America in 1978. From that year until his death, Brother Grace served as Loyola's university archivist, building a modern repository up from only a few volumes. He was fastidious in recording the school's history, convincing university officials that their correspondence was of historical value and gathering such documents as programs at campus events. "A lot of people don't understand that what they have is really valuable and helps document the history of an institution," said his colleague Valerie Browne, archivist at Loyola's Gannon Center for Women and Leadership Archives. "He loved books, history and constructing an archive," said Patrick M. Quinn, the archivist at Northwestern University and a friend for more than 20 years. "You just don't do this thing through organizational skills," Quinn said. "The fact that he was a warm and generous and caring person helped him do his job well." At holiday gatherings, Brother Grace would hand out envelopes containing articles he had clipped for individual family members. "For his friends and family, he truly was always thinking about you," his nephew Tom Grace said. He was a member of the Caxton Club, a Chicago bibliophile group, and since 1973 he was the national secretary for Amici Thomae Mori, an international organization devoted to Thomas More. He was a member of the Society of American Archivists and the Midwest Archives Conference.

—excerpted from Chicago Tribune (May 8, 2002) and Chicago Sun-Times (May 10, 2002)

KATHRYN M. MURPHY, 87, a longtime Washington resident who retired from the National Archives in 1999 after more than 50 years as an archivist, died of respiratory failure April 8, 2002, at Northwest Health Center. Ms. Murphy was born in Brockton, Mass., and raised in Washington, where she graduated from George Washington University. She received a master's degree in library science from Catholic University of America. She was founding president of the National Archives Chapter of the American Federal Government Employees Union and a member of the Society of the American Archivists, the National League of American Pen Women, and the Business and Professional Women's Club of Washington.

NEW ICA Programme Officer

The International Council on Archives (ICA) has hired Evelyn Wareham as its new Programme Officer. Wareham was previously Secretary General of ICA's Pacific Regional Branch (PARBICA). Her new duties will include serving as liaison with the Pacific region with a special focus on the needs of archivists in the developing world. Michael Hoyle will replace Wareham as Secretary General of PARBICA. Hoyle will serve in this position until PARBICA's 2003 conference to be held in Wellington, New Zealand. Hoyle is currently in charge of the Statutory Regulatory Group of Archives New Zealand.

Compendium of Pacific Archives Legislation

PARBICA Compendium of Pacific Archives Legislation (Canberra, Australia: PARBICA 2001) brings together in a single volume all of the records and archives statutes from the Pacific region. The 248-page publication is meant to serve the needs of archivists and legislators preparing or reviewing archives legislation as well as the needs of scholars studying archival frameworks in the region. Compiled and edited by Nancy Lutton, the compendium includes fact sheets on each nation, state and territory that provide insights into the constitutional status, geography, population and administrative histories that comprise the context for the various statutes presented. Copies are US$15 each. To order, contact: PARBICA Publications, c/o National Archives of Australia, P.O. Box 7425, Canberra Business Center, ACT 2610, Australia. Or send a message to kathrynnd@naa.gov.au.

Exhibit on Australia’s Capital

In April 2002, the National Archives of Australia mounted the exhibit, “A Vision Splendid: How the Griffins Imagined Australia’s Capital.” The exhibit consists of fifteen painted panels by Marion Mahony Griffin depicting her vision of what the capital of Australia might look like. Her husband, Walter Burley Griffin, an American architect, submitted his design to the Commonwealth of Australia Federal Capital Competition in 1912. Marion Griffin’s accompanying panels, colored with watercolors, photographic dyes and illuminated with swathes of gold, are believed to have helped her husband secure the prize. “A Vision Splendid” closes on September 1, 2002.

Treasures of National Archives of Australia Broadcast

Australian archivists have taken to the airwaves to tell their compatriots about the treasures held by the National Archives of Australia [NAA]. On the last Sunday of each month ABC Radio (Australian Broadcasting Corporation) broadcasts a program based on the NAA brochure “Our Collection” as a way of guiding listeners through the themes documented in records kept by the National Archives. In each program NAA representatives chat with an ABC host about collections, exhibitions, events and issues involved in managing a national archival institution. So far the program has aired in Adelaide and Canberra. The hope is to have an ABC Radio spot in each state by the end of 2002.

National Policy on Business Archives for Scotland

The Business Archives Council of Scotland has drafted a report titled, Elements of a National Policy on Business Archives for Scotland. The policy contains ten elements covering issues such as the need to encourage Scottish companies to establish their own archives programs and what companies wishing to place their records in public archives should do. Ownership and intellectual property rights issues are also covered in the policy. Of particular interest is Element 9, which calls for international cooperation among business archivists to present a coordinated response to global change in the business sector. The Business Archives Council of Scotland (BACS) was established in 1960 as an independent body concerned with the active preservation of Scottish Business Records. It is a registered charity funded by donations from Scottish businesses and a grant-in-aid from the Scottish Record Office. The aim of the draft policy report is to stimulate discussion on the preservation of business archives regardless of ownership. To review the policy elements, visit www.archives.gla.ac.uk/bacs/policy.html.

Scottish Council on Archives Inaugurated

On May 2, 2002, the Scottish Council on Archives was inaugurated at a civic reception in the Glasgow City Chambers. The council’s purpose is to establish a shared vision for the future development of Scotland’s archives. The formation of the council was one of the principal objectives of the Scottish National Archives Policy [1998] in recognition of the need for an independent body that would represent and promote the interests of Scotland’s broad archival community. The council is a non-executive body embracing all the major Scottish archives professional groupings. It also includes user groups, such as family and local historians, teachers of history, as well as representatives of private owners of archives. At the inaugural ceremony, George MacKenzie, Keeper of the Records of Scotland, delineated the overall tasks of the council. “We need to draw public attention to the importance of archives as part of our shared cultural heritage; we need to remind educators of the value of archives in learning; we need to underline the importance of archives in promoting tourism; and we need to sensitize decision makers in both public and private sectors of the need to keep proper records,” he said. To learn more about the Scottish Council on Archives visit http://sca.archives.org.uk.

“Evidence-Based Governance” Web Site

The World Bank and the International Records Management Trust have launched a new Web site for their joint project, “Evidence-Based Governance in the Electronic Age” at continued on page 23
In May the SAA Task Force on Electronic Publications (TFEP) issued a progress report containing several draft recommendations to SAA Council in time for its June meeting. The Task Force envisions several fundamental changes to the submission, production and distribution of SAA publications that will enable the development of new products and increase accessibility for our members.

"The task force has worked hard to think outside of the box and consider the full scope of SAA's publication program," said TFEP chair Rob Spindler. "We have many opportunities to increase the efficiency of the submission and editorial processes, create entirely new publications and new aggregations of existing SAA content, and ultimately enhance the utility and visibility of our publications for SAA members and other archivists worldwide."

The task force plans to prepare a revised draft report in time for the SAA annual meeting in Birmingham, Alabama, this August. A draft report will be distributed for comment at the annual meeting and through the SAA Web site. In addition, TFEP will host office hours in the SAA exhibit area at the Sheraton Birmingham Hotel on Friday, August 23 from 10 a.m.–11 a.m.

support of the legislation were entered into the official hearing record from a number of distinguished legal experts and by Dr. John Brademas (a former Indiana Congressman who played a key role in passage of the Presidential Records Act of 1978) and ARMA International, a 10,000 member association for the records and information management profession. During that hearing, three of the four panelists voiced their support for the Horn bill. Professor Turley, for example, stated that Bush’s Executive Order 13233 "is fatally flawed as a matter of law and extremely misguided as a matter of public policy."

(Prepared statements from the April 24 hearing are posted at: www.fas.org/sgp/congress/2002/index.html#pra2.)

According to Texas State Attorney General John Cornyn, President Bush did not break the law when he sent his gubernatorial papers to his father’s presidential library instead of the state archives. However, the official also declared that the documents are state property and therefore are subject to Texas’ open-records law. According to Cornyn, when Bush was governor, he did have “the power to designate an alternate repository for his gubernatorial records,” but he did not have the authority “to alter the manner in which such records are preserved or made available to the public.”

Shortly before he left office, then-Governor Bush invoked a provision of a 1997 Texas law that gave governors the right to name an alternate depository for their official papers. Once transferred to the Bush library, federal officials raised the issue whether the records fell under federal or state public access laws. Federal officials stated that they could not be expected to comply with a state law and lacked the resources to do so. Nevertheless, in most instances, the library staff has come close to fulfilling within 10 days many requests for documents that have poured into the library.

Peggy D. Rudd, director of the Texas State Library and Archives Commission, who took a firm stand in asserting provisions of the Texas Public Information Act to assure the state’s control over the papers, felt “vindicated” at the news of the decision. She said that the state archives and the Bush library have been operating under a memorandum of understanding that had been working fairly well, but the decision “gives us a much clearer direction and allows us to work with the George Bush Presidential Library.” Tom Smith, state director of the consumer advocate group Public Citizen, stated, “This is a victory for the people and their right to know and assures the public an opportunity to look at these records in a timely way.” For historians and archivists, the ruling means that the Bush Library will have to comply with the state’s open records law that, among other provisions, requires answers to FOIA requests within 10 days.
The Charters of Freedom will go back on display in September 2003. The National Archives Experience as a whole will debut to the public on July 4, 2004, and you can be sure we will throw a great party to celebrate.

I know that the months ahead will be very busy and exciting, as we work to turn the noise and dust of renovation into a new, one-of-a-kind interactive visitor experience.

President Franklin D. Roosevelt, who in 1934 signed the legislation to establish the National Archives, said,

“To bring together the records of the past and to house them in buildings where they will be preserved for the use of men and women in the future, a nation must believe in three things.

It must believe in the past.
It must believe in the future.
It must, above all, believe in the capacity of its own people so to learn from the past that they can gain in judgement in creating their own future.”

This is a sentiment that is very familiar to those of us who care for and about records, and I hope that by exploring the National Archives Experience, visitors will soon come to share our appreciation and respect for records of all kinds.

Through the National Archives Experience, visitors will examine the past and envision their own future and the future of our country. And, I believe the public will come to see what we as archivists already know—that the National Archives is not a storage place for old, dusty paper, but a fascinating, relevant and very necessary part of our democracy that holds the stories of our people and our nation and the makings of our future.

World View

www.irmt.org/evidence/. The goal of the project is to ensure that records in digital form will be protected and accessible over time as reliable, authentic, and accurate evidence. This is particularly important as governments around the world move toward ever greater use of information and communication technologies. Eighteen partner organizations are collaborating with the World Bank and IRMT. For more information, contact: Andres McAlister (amcalister@worldbank.org) or Anne Thurston (athurston@irmt.org).

South African History Archive Web site

The South African History Archive, an independent archive established in the 1980s to document the struggles against apartheid, launched its new Web site at www.wits.ac.za/sahalarchives.htm. The archives is directed by Verne Harris, who is on the faculty at the University of the Witwatersrand. (Check out the university’s postgraduate course in archival studies at www.wits.ac.za/gshass/archives.)
2002 CALENDAR

August 5-9
"Publishing EAD Finding Aids" is one of the Rare Book School courses at the University of Virginia. Student housing is available in Charlottesville area. Contact 434/924-8851; fax 434/924-8824; or oldbooks@virginia.edu. See www.rarebookschool.org.

August 19-25

August 21
Application deadline for the Academy of Certified Archivists certification exams to be held in NYC, Birmingham, AI; Salt Lake City, UT; Milwaukee, WI; and Seattle, WA; plus other "pick your site" locations. Contact ACA, 48 Howard St., Albany, NY 12207; 518/463-8644; fax 518/463-8656; or acac@caphill.com.

August 21
"Metadata Matters: RLG Update on Current Metadata Initiatives" at the Sheraton Birmingham Hotel in Birmingham, Alabama. The workshop will be held in conjunction with the Society of American Archivists annual meeting. Participants will learn about and discuss the implications of a number of new metadata initiatives that have special relevance to the archival community. There is a limit of 60 participants. RSVP to Fran Devlin at fed@notes.rlg.org or 650/691-2239.

September 1-6

September 13-15
"September 11th, 2001: The Impact and Aftermath for Canada and Canadians" in Ottawa, Ontario, sponsored by the Association for Canadian Studies. This multidisciplinary conference will provide a unique opportunity to reflect upon and debate the critical issues that have arisen since the tragedy. For more information, visit www.acs-aec.ca.

October 2002
Rutgers University’s School of Communication, Information and Library Studies will be sponsoring its biennial Preservation Management Institute beginning in fall 2002. The Institute is designed for collections professionals who have preservation responsibilities for their institutions and need more in-depth formal training. The program includes three weeks of classroom instruction during one year: one week in October 2002, one week in April 2003, and a final week in September 2003. The three weeks of classes include field trips, guest speakers, and hands-on exercises as well as highly interactive instruction. Between sessions participants conduct some guided preservation activities for their institutions. Participants who complete all the requirements for the Institute will earn a certificate in preservation management from Rutgers. The head instructor of the Institute is Evelyn Frankakis, Preservation Officer of the National Agricultural Library and former Preservation Program Director for the Society of American Archivists. Guest speakers will include Dr. Thomas Parker, pest control expert, Anne Kenney of Cornell’s preservation department, and Bill Lull, an expert on environmental issues. Funding for a number of scholarships to the Institute will be available. Check the program Web site for eligibility requirements, application forms, and other details. At this time the New Jersey Historical Commission will be supporting three scholarships, and the National Endowment for the Humanities is likely to support ten scholarships. For more information visit http://scils.rutgers.edu/pds/pmi.jsp. If you have any questions, contact Karen Novick at Rutgers SCILS at pds@scils.rutgers.edu or 732/932-7169.

October 9-11
ECURE 2002 in the Phoenix metropolitan area. Registration materials and program information are available at www.ou.edu/ECURE/. Contact: Alice Andric, University of Arizona. The symposium will focus on the what, how and why of collecting. A panel of experts will discuss with the audience the ethics of information access and practical efforts to accommodate a range of opinions and interests.

October 24-26
Joint meeting of Mid-Atlantic Regional Archives Conference (MARAC) and New England Archivists (NEA), Grand Hotel, Poughkeepsie, NY. Reception will be held at the museum galleries of the Franklin D. Roosevelt Library in Hyde Park. Luncheon speaker will be Edward Tenner, an independent writer and consultant affiliated with Princeton University and the author of Why Things Bite Back: Technology and the Revenge of Unintended Consequences. For more information, visit www.newenglandarchivists.org.

November 1-3
"Choices and Challenges: Collecting by Museums and Archives" at the Benson Ford Research Center, Henry Ford Museum & Greenfield Village, Dearborn, Michigan. The symposium, with support from the Americana Foundation, will bring together curators and archivists from leading history museums, historical societies and collecting repositories from across the United States. Topics covered will include the what, how and why of collecting. The goals of the symposium are to share best practices, encourage collaboration and to help professionals better understand the strategic implications of collecting. For more information, visit www.hfmgv.org/calendar/symposium or contact Marilyn Yee at Marilyn.Y@hfmgv.org or 313/982-6100.

November 2
Society of Rocky Mountain Archivists fall meeting at the Denver Federal Center in Lakewood, CO. Visit http://www.uswy.edu/ahc/srma.

November 13-16
36th International Conference of the Round Table on Archives (CITRA) in Marseille, France. Theme: "How Does Society Perceive Archives?"
This international meeting is one of a series of three conferences on the general theme "Archives and Society," organized by the International Council on Archives. For more information, contact CITRA chairman Ian Wilson at iwilson@archives.ca.

**FUNDING**

**AIP Center for History of Physics**
The Center for History of Physics of the American Institute of Physics has a program of grants-in-aid for research in the history of modern physics and allied sciences (such as astronomy, geophysics, and optics) and their social interactions. Grants can be up to $2,500 each. They can be used only to reimburse direct expenses connected with the work. Preference will be given to those who need funds for travel and subsistence to use the resources of the Center’s Niels Bohr Library (near Washington, DC), or to microfilm papers or to tape-record oral history interviews with a copy deposited in the Library. Applicants should name the persons they would interview or papers they would microfilm, or the collections at the Library they need to see; you can consult the online catalog at [http://www.aip.org/history](http://www.aip.org/history).

Applicants should either be working toward a graduate degree in the history of science [in which case they should include a letter of reference from their thesis adviser], or show a record of public research in the field. To apply, send a vitae, a letter of no more than two pages describing your research project, and a brief budget showing the expenses for which support is requested to: Spencer Weart, Center for History of Physics, American Institute of Physics, One Physics Ellipse, College Park, MD 20740; phone 301/209-3174; fax 301/209-0882; e-mail sweart@aip.org. **Deadlines for receipt of applications are June 30 and December 31 of each year.**

**Brown University Research Fellowship Program**
The John Nicholas Brown Center is now accepting applications for its Research Fellowship Program. The center supports scholarship [research and writing] in American topics, primarily in the fields of art history, history, literature, and American studies. Preference is given to scholars working with Rhode Island materials or requiring access to New England resources. Open to advanced graduate students, junior or senior faculty, independent scholars, and humanities professionals. We offer office space in the historic Nightingale-Brown House, access to Brown University resources, and a stipend of up to $2,000 for a term of residence between one and six months during one of our two award cycles each year: January through June; July through December. Housing may be available for visiting scholars. **Application deadlines are: November 1st for residence between January and June; April 15th for residence between July and December.** To request an application, please contact: Joyce M. Botelho, Director, The John Nicholas Brown Center, Box 1880, Brown University, Providence, RI 02912. 401/272-0357; fax 401/272-1930; joyce_Botelho@Brown.edu.

**California Institute of Technology Biot and Archives Research Funds**
The Maurice A. Biot Archives Fund and other funds provided by the archives offer research assistance up to $1,500 to use the collections of the archives of the California Institute of Technology. Applications will be accepted from students working towards a graduate degree or from established scholars. Graduate students must have completed one year of study prior to receiving a grant-in-aid. For the Biot award, preference will be given to those working in the history of technology, especially in the fields of aeronautics, applied mechanics and geophysics. The grant-in-aid may be used for travel and living expenses, for photocopy or other photo-reproduction costs related to the research project, and for miscellaneous research expenses. Funds may not be used for the purchase of computer software or hardware. For further information on holdings and online resources, please consult the [http://archives.caltech.edu](http://archives.caltech.edu). Application guidelines may be obtained by writing to: Archivist, 015A-74, California Institute of Technology, Pasadena, CA 91125. Applications will be accepted year-round and will be reviewed quarterly on January 1, April 1, July 1, and October 1 of each year.

**Carl Albert Congressional Research and Studies Center Visiting Scholars Program**
The Carl Albert Congressional Research and Studies Center at the University of Oklahoma, with funds provided by the archives, offers research grants to visiting scholars. The Center Visiting Scholars Program is open to advanced graduate students, junior or senior faculty, independent scholars, and humanities professionals working in areas of interest to CLIR or DLF. The program is open to individuals who have achieved a high level of professional distinction in their fields and who are working in areas of interest to CLIR or DLF. For more information, please contact [www.clir.org](http://www.clir.org). The fellowships are available for periods of between three to twelve months and are ideal for senior professionals with a well-developed personal research agenda. Prospective applicants are encouraged to contact CLIR President Deanna Marcum, 202/939-4750, or DLF Director Dan Greenstein, 202/939-4762.

**James J. Hill Library Grant**
The James J. Hill Library will award a number of grants of up to $2,000 to support research in the James J. Hill, Louis W. Hill, and Reed/Hyde papers. The James J. Hill papers (1856-1916) are an extensive and rich source for studies of transportation, politics, finance, Native American relations, art collecting, philanthropy, urbanization, immigration, and economic development.
in the Upper Midwest, Pacific Northwest, and Western Canada. The Louis W. Hill Papers (1846-1948) document similar subjects, as well as his involvement in the development of Minnesota’s iron mining industry and the development of Glacier National Park and the related tourist industry. The deadline for applications is November 30th. For more information, contact W. Thomas White, Curator, James J. Hill Library, 80 W. Fourth Street, St. Paul, MN 55102; 651/265-5441; twwhite@jjhill.org.

Laboratory-Archive Partnership Grants
The National Film Preservation Foundation invites proposals for its 2002 Laboratory-Archive Partnership Grants. Through this program, archives can receive grants for film preservation work at laboratories and post-production houses donating services to the NFPF. Interested organizations must register by July 8, 2002; the final applications are due August 12, 2002. NFPF grants target the preservation of films that (1) were made in the United States or by Americans abroad, and (2) are not preserved by commercial interests. Nonprofit and public archives, including those in the federal, state, and local government, may participate. The application guidelines are posted on the NFPF Web site at www.filmpreservation.org/grants Projects Partnership.html.

The Pepper Foundation’s Visiting Scholars Program
The Claude Pepper Foundation seeks applications for its 2002 Laboratory-Archive Partnership Grants. Through this program, archives can receive grants for film preservation work at laboratories and post-production houses donating services to the NFPF. Interested organizations must register by July 8, 2002; the final applications are due August 12, 2002. NFPF grants target the preservation of films that (1) were made in the United States or by Americans abroad, and (2) are not preserved by commercial interests. Nonprofit and public archives, including those in the federal, state, and local government, may participate. The application guidelines are posted on the NFPF Web site at www.filmpreservation.org/grants Projects Partnership.html.

Morriss K. Udall Archives Visiting Scholars Program
The University of Arizona Library Special Collections houses the papers of Morris K. Udall, Stewart L. Udall, David K. Udall, Levi Udall and Jesse Udall. The library’s holdings also include related papers of noted politicians Lewis Douglas, Henry Ashurst and George Hunt. To encourage faculty, independent researchers, and students to use these materials, the Morris K. Udall Archives Visiting Scholars Program will award up to three $1,000 research travel grants and four $250 research assistance grants in the current year. Preference will be given to projects relating to issues addressed by Morris K. Udall and Stewart L. Udall during their long careers of public service on environment, natural resources, Native American policy, conservation, nuclear energy, public policy theory and environmental conflict resolution.

Eligibility: The grants are open to scholars, students, and independent researchers. Awards: The $1,000 research travel grants will be awarded as reimbursement for travel to and lodging expenses in Tucson, Arizona. These grants do not support travel to locations other than Tucson. The $250 research assistance grants will be awarded to assist local researchers. Application Procedures: Applications will be accepted and reviewed throughout the year. Please mail a completed application form with three sets of the following materials: 1) a brief 2-4 page essay describing your research interests and specific goals of your proposed project; and 2) a 2-3 page brief vita. To request an application, contact: John Murphy, University of Arizona Library Special Collections, P.O. Box 210055, Tucson, Arizona 85721-0055, murphyj@u.library.arizona.edu.
3 ARCHIVISTS
Library of Congress
Re-Housing of Pre-1900 American Maps
Washington, DC
Experience in archives, demonstrated familiarity with archival best practices, and holdings maintenance/preservation activities. Salary: $40,000 + Benefits. To apply, contact: Deborah Gibson, Gibson Consulting, Incorporated, 1090 Vermont Avenue, NW, Suite 800, Washington, DC 20005; 202/408-6890; DGibson@gibsonconsulting.org.

**HEAD, INSTITUTE ARCHIVES AND SPECIAL COLLECTIONS**

**Massachusetts Institute of Technology**

Cambridge, MA

The Massachusetts Institute of Technology Libraries seek an experienced, innovative, and technically savvy archivist to guide the continuing development of the Institute Archives and Special Collections. These collections comprise one of the largest university archives and one of the most significant collections related to the history of science and technology in the U.S. The holdings include over 13,000 feet of Institute records and personal papers, an important rare book collection, MIT theses, MIT publications and technical reports, and other related materials. The Head is responsible for managing all activities related to building and managing these collections for the benefit of present and future scholars and MIT administrators. In addition, the Head oversees a records management program for the Institute. The Libraries are seeking an individual who can provide the leadership required to effectively manage a large collection of important traditional paper records and simultaneously develop strategies for meeting the challenges posed by electronic records.

**Responsibilities:**

- The Head is responsible for the visibility of the Archives and Special Collections at MIT, leading outreach efforts to administrators, faculty, and staff. He/she contributes to information policy decisions at the Institute and consults on Institute-wide projects relating to electronic records. Leading a staff of seven, the Head establishes policy and processes for all aspects of the department’s work, including: records appraisal, solicitation of new collections, preservation/storage, arrangement/description, and reference/access services. This includes leadership in the evaluation and implementation of technology to enhance management of and access to the collections. Reporting to the Associate Director for Collection Services, the Head works within an environment of shared responsibilities for such functions as records cataloging, and digitization projects. He/she serves as the Archives’ representative to various committees and advisory groups within the Libraries, including the Policy Committee for the Libraries’ DSpace initiative. As a member of the Libraries’ administrative group, he/she participates in the Libraries’ governance and fundraising activities.

**Qualifications:**

- ALA-accredited Master’s Degree in Library/Information Science; experience in archival and library management, or equivalent experience; working knowledge of national and international standards and practices; excellent oral, written and interpersonal skills.

**Salary:**

- $34,888, commensurate with experience. The Libraries offer a comprehensive benefits package, including health, retirement, and tuition reimbursement.

**To apply, contact:** Judith Dzierba, Library of Rush University, 600 S. Paulina, Chicago, IL 60612; Judith_L.Dzierba@rush.edu.

**PRE-CLINICAL DEVELOPMENT ARCHIVIST**

Ventura County, CA

Experienced archivist in the pharmaceutical industry to maintain, store and develop records management program; evidence of ability to work well with staff, faculty, administrators, and donors; a record of achievement in outreach activities; experience with or an understanding of issues related to electronic records; evidence of understanding of intellectual property issues; familiarity with appropriate technology; background in the U.S. history of science and technology; record of sustained participation and contribution to the archival/library profession. Review of applications will begin July 12, 2002. Send cover letter, resume, and names and addresses of five current references. **To apply, contact:** Search Committee for Head, Institute Archives (SA), MIT Libraries, 77 Massachusetts Ave., Room 145-324, Cambridge, MA 02139-4307; 617-253-9322; fax 617-253-0583; rmdeas@mit.edu; http://libraries.mit.edu.

**LIBRARIAN/ARCHIVIST**

**Rush-Presbyterian-St. Luke’s Medical Center**

Chicago, IL

The Library of Rush University seeks applications for the position of Librarian/Archivist. The successful candidate will provide core archival and records management services for the archives of Rush-Presbyterian-St. Luke’s Medical Center and Rush University, their predecessor institutions and subsidiary units, and of staff and other individuals closely associated with those institutions. Duties: Administer the archives, including accessioning, processing, cataloging, and enhancing research, reference, and genealogical access services to the archives. Environment: The Medical Center’s roots stem as far back as 1837 with the receipt of the Rush Medical College charter. Currently, the archives contain 141 linear feet of records, and holds hundreds of framed photographs, prints, diplomas, certificates, video recordings and films, museum quality artifacts, including antique medical and dental instruments and thousands of glass and 35mm slides. DB/TextWorks and Access are utilized. DB/TextWorks is used in the database of the automating archival processes. The Stanton A. Friedberg Rare Book Room collection at the Library of Rush University also supports archival research at the institution. The main campus of the Medical Center/University is located on the near west side of Chicago, not far from the Loop.

**Requirements:**

- ALA-accredited Master’s Degree in Library/Information Science; experience in archival and library management, or equivalent experience; working knowledge of national and international standards and practices; excellent oral, written and interpersonal skills.

**Salary:**

- $30,000 (35 hour work week), plus benefits. Review of applications will begin July 15, 2002. Applications will be accepted until the position is filled. **To apply, send letter of application, resume, and three names with appropriate addresses, telephone numbers and/or entail addresses.**

**To apply, contact:** Sister Hildegard Varga, OSB, Diocese of Amarillo, P. O. Box 504, 1800 North Spring, Amarillo, TX 79117-5644; 806/383-2243, Ext. 120; fax 806/383-8452; hvarga@amarillodiocese.org.

Minimum salary $32,000, negotiable depending upon qualifications and experience. Company benefits. Walking distance from Bethesda Metro Station. No phone calls please.

SPECIAL COLLECTIONS/ARCHIVIST
Princeton Theological Seminary
Princeton, NJ

The Princeton Theological Seminary Libraries invites applications for the position of Director of Special Collections. The Director reports to the Seminary Librarian. He or she will assist patrons, supervise staff, acquire and preserve materials, and represent the Seminary’s special collections to scholars. The Director of Special Collections has an informal, rather than a classroom, teaching responsibility advising students, faculty, and visiting scholars using the Seminary’s extensive archival, manuscript, and rare book collections. Desired qualifications include: a Ph.D. in a theological or related subject area, an M.Div. degree, an M.L.S. degree, membership in the Presbyterian Church (USA), familiarity with rare book and manuscript collections, budgeting and management skills, the physical ability to move standard archival boxes, a publishing record, participation in scholarly societies, and experience writing grant proposals. Above all, the candidate must have a commitment to promote the history and mission of Princeton Theological Seminary to various constituencies. Equal opportunity employer. This position is available either full-time or part-time at a salary range.

The search will continue until the position is filled. Please send a letter of application, a curriculum vitae, and names of three references. To apply, contact: Stephen D. Crocco, Seminary Librarian, Princeton Theological Seminary, P.O. Box 111, Princeton, NJ 08542-0111; 609-497-7930; fax 609/497-1826; stephen.crocco@ptssem.edu.

TECHNICAL SERVICES ARCHIVIST
Duke University Archives
Durham, NC

The Duke University Archives acquires, preserves, and makes accessible university records with permanent historical and research value. The Technical Services Archivist processes these records according to national and local standards. Additional responsibilities include assisting the University Archivist with records transfers, serving as a liaison to campus offices and officials as needed, providing occasional reference assistance, and supervising student assistants and project staff. Reports to the University Archivist.

Required: Master’s degree from an ALA-accredited program or an advanced degree in history, public history, or related field; archival training and experience; familiarity with standard archival procedures; excellent oral and written communication skills, and the ability to be an enthusiastic participant in a highly collaborative service-oriented environment. Desirable: experience creating archival finding aids using EAD and collection level MARC records. This is an entry level position with appointment at the level of Assistant Librarian; minimum salary $34,800. Send cover letter, detailed resume, and the names, addresses (mailing and e-mail), and telephone numbers of three references to: Sharon A. Sullivan, Director, Personnel Services, Perkins Library, Box 90194, Duke University, Durham, NC 27708. Duke University is an Equal Opportunity/Affirmative Action employer. The Perkins Library System has a strong commitment to Affirmative Action and is actively seeking to increase the racial and ethnic diversity of our staff.
