

# RECORDS IN ARCHAEOLOGICAL RESEARCH: A HISTORICAL CASE STUDY EXAMINING THE MANDATES OF CHANGE IN ARCHAEOLOGICAL RECORDKEEPING IN THE UNITED STATES

Brian M. Cumer  
School of Information Sciences  
University of Pittsburgh

August 23, 2011  
Society of American Archivists

# *Introduction*

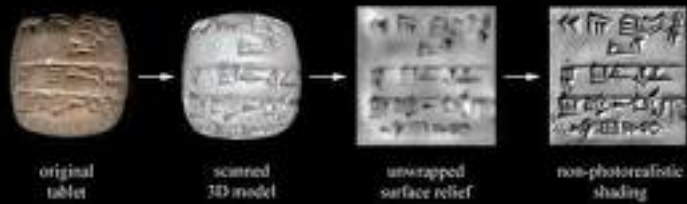

# *Significance*

1. Will provide a narrative chronology of archaeological recordkeeping.
2. Will describe in detail the external mandates that lead to evolutionary changes in practices for recording archaeological research.
3. Will help to provide a context for archaeologists and records professionals who are dealing with the current changes occurring in archaeological record keeping and records use.

# Research

How have changes in the recordkeeping mandates of technology and policy during the 20<sup>th</sup> and 21<sup>st</sup> Centuries influenced the nature of archaeological recordkeeping in the United States?

# Technology

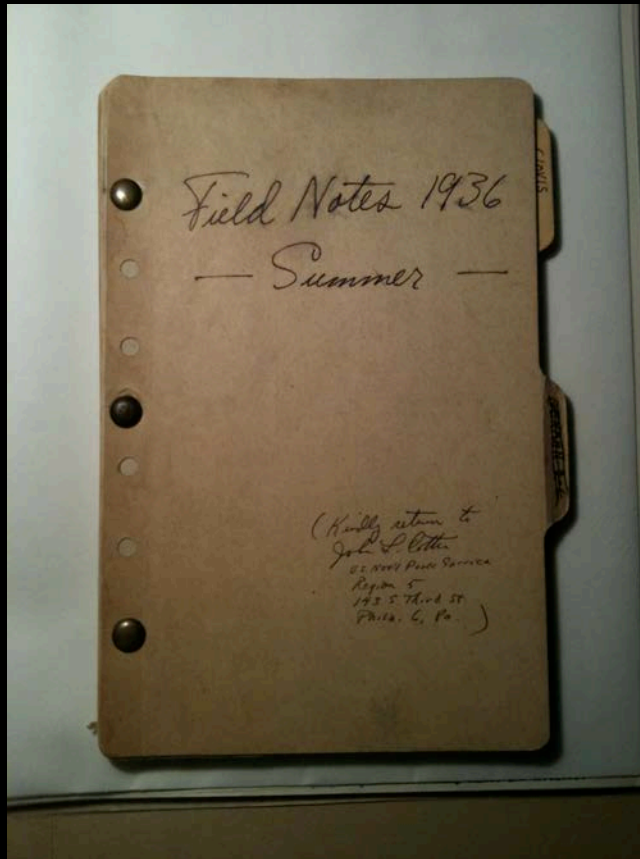

# Policy

# Units of Study

- Archival Materials – the Records of Archaeology
  - Focus on historical archaeology in the U.S.
  - Archaeologists with long careers
  - Long-term archaeological projects
- Interviews
  - Archaeologists with long careers/associated with long-term projects

# Phase one: John Cotter
